To improve customer attention, the National Fisheries Service has implemented an online purchasing system that has the following advantages:

- Fast
- Accessible
- Available during non-working hours
- Available in any region of Chile
- Secure for electronic payments via the payment portal of the General Treasury Department.
- Convenient, allowing you to purchase your license from home or work place.

These improvements will allow you to purchase a recreational fishing license online 24 hours a day, 7 days a week.
